

Software Register (New Under \$5,000) 10-07-2019

| School or Department and Budget | Software or Service / Vendor | Main Purpose | Background | Not to Exceed | Term |
|---------------------------------|----------------------------------|----------------------------------|---|---------------|-------------------------------------|
| Fiscal Services General Fund | Simple Start / QuickBooks Online | Accounting Productivity Software | Fiscal Services has used the desktop version of this software to manage revolving cash accounts for many years. QuickBooks Online automatically syncs the revolving cash account profile to one single dashboard where multiple users can view in-depth reports of the district's finances. By navigating through QuickBooks Online, users can process payments that are print friendly, view check registers and reconciliation details, add permissions, and edit security levels. Users can also create their own custom reports and feeds from within the dashboard so the department sees what matters the most. The platform puts Fiscal Services in complete control of the revolving cash account and provides free online support, from setup to training. | \$300 | November 1, 2019 - October 31, 2020 |
