

Proposal for mathematics work with Newport Mesa Unified School District May 2020

Callahan Consulting, Inc has experience both nationally and internationally evaluating, supporting, and improving school systems in the area of mathematics. This proposal outlines a plan for the design, implementation and analysis of a high quality, 6th grade mathematics transition benchmark assessment for Newport Mesa Unified School District (NMUSD) in the spring of 2020.

Primary Goals & Outcomes:

- Articulate the purpose and design of a placement test which aims to
 - identify needs of students as they transition to MS math courses
 - provide an annual benchmark of the mathematics program districtwide (an additional metric to the CAASPP scores)
- Review items and language to to create 2020 version of the assessment
- Score, Analyze and report the results
- Discuss messaging and communication of the purpose of results to all stakeholders (parents, students, teachers, administrators, Board members etc.)

Cost of Work:

Design, delivery, and analysis of the 2020 Mathematics Transition Benchmark = \$2,000.
Scoring and reporting of data \$5 per student x 1500 students = \$7,500.

Total Cost: \$9,500.00
