EXHIBIT A

EVERFI K12 Data Privacy Policy

Overview

As a provider of online content, EVERFI takes student privacy very seriously and complies with two specific pieces of legislation protecting student privacy:

- **Family Education Rights and Privacy Act (FERPA):** Mandated by the Department of Education to protect the privacy of education records while still allowing for effective use of data.
- **Children's Online Privacy Protection Act (COPPA):** Mandated by the FTC to protect children under 13 from unfair or deceptive uses of personal information.

Both of these regulations address third party handling of Personally Identifiable Information (PII) and Education Records. EVERFI collects a narrow set of PII, referred to as "Directory Information" under FERPA. Schools have the right to share this information with EVERFI, and EVERFI has the right to store this information so long as the information is not disclosed to third parties, and there are proper measures in place to delete all records upon request.

As a practice, EVERFI only uses PII for core business practices such as troubleshooting technical issues and presenting teachers with reports for individual students (such as rosters and scores). All student data, when analyzed internally or shared externally, is

aggregated and de-identified, meaning it cannot be traced back to individual students.

PII Related Data Being Stored (K-12)

- Date of Birth is requested (to support COPPA compliance) but is only stored as an over/under 13 flag.
- If a student is flagged as over 13, email is optional and first name and last name are required.
- If a student is flagged as under 13, email is not collected and first name and first initial of last name (1 character only) is required for the sole purpose of helping teachers identify students. As an alternative, teachers can direct students to register with ID numbers instead of names.

General Privacy Policy and Data Security

- Use student data to create student profiles or perform any other type of data mining that might result in damaging or discriminatory representations of student ability
- Use or sell student data for commercial purposes, such as creating targeted ads
- Use or sell student data for marketing research purposes
- Share email addresses or individual student data with third parties
- Store PII data on removable drives
- Email PII data directly to anyone

EVERFI DOES:

- Analyze and report on student data in de-identifiable and/or aggregate form, either to improve our learning products or communicate the impact of a program to third parties. Data is retained only for educational purposes.
- Use best of breed cloud-based hosting and system admin services in Amazon Web Services to host and keep all data secure
- Encrypt all data at rest, encrypt all hard-drives, and use TLS encryption for data transfer
- Use role-based access control on a need-to-know basis for staff
- Incorporate appropriate password policies based on specific roles and markets

- Archive and remove student data every 4 years (on a rolling basis)
- Run vulnerability and penetration security testing
