**Instructional Materials Pilot  
District Partnership Agreement**

**PURPOSE OF THE AGREEMENT**

The purpose of this agreement is to describe the expectations and responsibilities of the publisher and piloting district personnel.

**TWIG SCIENCE OBJECTIVE**

Our primary objective of this pilot is to demonstrate that Twig Science curriculum, materials, and digital resources accomplish a high level of complete and comprehensive NGSS support for teachers and students when implemented according to the intent of NGSS instructional shifts.

RESPONSIBILITIES OF THE DISTRICT PILOT	RESPONSIBILITIES OF TWIG SCIENCE
The district will identify teachers who will participate as evaluators of both Twig Science Print and/or Digital materials for this pilot.	Twig Science will provide student and teacher pilot materials per the pilot application/district qualification (below).
The district will provide a Module Materials Order with email addresses for each participating teacher/evaluator. (see Tab 3; please note dates the asynchronous Twig Coach instructional videos are released)	Twig Science will register pilot teachers for online materials.
The district will require a mandatory 3-hour in-service for pilot teachers that is synchronous (live via zoom) and 2, 1-hour follow-ups (live via zoom). In-person training is available where County Health Department permissions are present.	Twig Science will provide a certified Consultant to train and follow up with pilot teachers prior to the pilot implementation.
The district will approve in-person (where permissible per county health guidelines) or online visits and webinar/email chats to pilot teachers from Twig Science for the purpose of direct support in the program and NGSS.	Twig Science will provide ongoing direct support and communication for district personnel and pilot teachers throughout the pilot implementation.
Upon completion of the pilot implementation, all print and kit materials not adopted are to be gathered for return and digital access may be expired.	Twig Science personnel will coordinate pick-up of the materials not adopted.
Pilot teachers will complete 2 digital surveys of their experience with Twig Science: Pilot Profile and at the Mid-Pilot Survey.	Twig Science will provide brief surveys throughout the pilot to gauge teacher and student needs.
Pilot teachers will complete 2 digital surveys of their experience with Twig Science: Pilot Profile and at the Mid-Pilot Survey.	Twig Science will provide brief surveys throughout the pilot to gauge teacher and student needs.
District Contact will share the IT Whitelist and Technical Specifications (see last tab in this document) with the district's IT department for integration purposes.	Twig Science will provide direct Consultation with the district's IT department to roster and integrate software through SSO or other channel.
