Hello,

The quote includes the cost for 1 perpetual license of SDL Trados Studio. I applied a 10% educational discount.

SDL Trados GroupShare centralizes translation memories (TMs), termbases and projects on a server, and makes them available to users through SDL Trados Studio to streamline the way your team translates documents. The cost for GroupShare varies on the number of users, as well as how it is deployed (on your company server or in the Cloud). GroupShare deployments can cost anywhere between \$5k - \$15k.

\*Please review the attached *SDL\_br\_GroupShare\_SR1\_EN.pdf* file for more information on the GroupShare solution.

Thank you for considering SDL Translation Productivity solutions, Please contact me with any questions.

Regards,  
Mckenzie Gatz
